

Safety Data Sheet

Section 1: Identification

Product identifier

Product Name Hasco Cut 102

Relevant identified uses of the substance or mixture and uses

Recommended use Cutting and Grinding Fluid

Details of the supplier of the safety data sheet

Manufacturer Hasco Oil Company Inc.
2800 Temple Ave
Long Beach, CA 90806
United States
www.hascooil.com

Telephone (General) (562) 595-8491

Emergency telephone number

Manufacturer 1 (800) 424-9300 - Chemtrec USA

Section 2: Hazard Identification

UN GHS

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Classification of the substance or mixture

UN GHS Not classified

Label elements

UN GHS

No signal word

Precautionary statements

Prevention No GHS response statement

Response No GHS response statements

Storage/Disposal Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Other hazards

UN GHS No data available

Section 3 - Composition/Information on Ingredients

Substances

Mixtures

Composition		
Chemical Name	Identifiers	%
Hydrotreated heavy paraffinic petroleum distillate (highly refined)	CAS:64742-54-7	> 75%

Section 4: First-Aid Measures

Description of first aid measures

Inhalation	Get medical attention if symptoms occur. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
Skin	After contact with skin, immediately flush skin with plenty of water for at least 15 minutes. Take off immediately all contaminated clothing and shoes and wash immediately before reuse. Get medical attention if irritation develops.
Eye	Get medical attention if symptoms occur. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Ingestion	Obtain medical attention immediately if ingested. Never give anything by mouth to an unconscious person. Do NOT induce vomiting unless directed to do so by medical personnel.

Most important symptoms and effects, both acute and delayed

No data available

Indication of any immediate medical attention and special treatment needed

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media Use an extinguishing agent suitable for surrounding fire. Use dry chemical, CO₂, water spray (fog) or foam.

Unsuitable Extinguishing Media Do not use water jet.

Firefighting Procedures Keep unauthorized personnel away.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards None Known

Hazardous Combustion Products

Combustion products may include the following: metal oxide/oxides, carbon oxides (carbon monoxide, carbon dioxide)

Advice for firefighters

Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures**Personal Precautions**

Wear personal protective clothing and equipment.

Emergency Procedures

Keep unauthorized personnel away. Ventilate closed spaces before entering. Eliminate all ignition sources. As an immediate precautionary measure, isolate spill or leak area in all directions. Stop leak if you can do it without risk.

Environmental precautions

Avoid contact of spilled material with soil and prevent runoff entering surface waterways.

Methods and material for containment and cleaning up**Containment/Clean-up Measures**

LARGE SPILL: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

SMALL SPILL: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7 - Handling and Storage

Precautions for safe handling**Handling**

Avoid contact with heat and ignition sources. Avoid contact with skin and clothing. Avoid contact with eyes. Use only with adequate ventilation. In accordance with good industrial hygiene and safety work practices, airborne exposures should be controlled to the lowest extent practicable. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities**Storage**

Store in accordance with local regulations. Store away from direct sunlight in a dry, cool and well ventilated area, away from incompatible materials (see section 10). Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8 - Exposure Controls/Personal Protection

Exposure controls

Engineering Measures/Controls

Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Personal Protective Equipment

Pictograms

Respiratory

Use only in adequate ventilation. In accordance with good industrial hygiene and safety work practices, airborne exposures should be controlled to the lowest extent practicable.

Eye/Face

Avoid contact with eyes. Wear chemical splash safety goggles.

Hands

Wear appropriate gloves.

Skin/Body

Avoid contact with skin and clothing. Wear suitable protective clothing.

General Industrial Hygiene Considerations

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Environmental Exposure Controls

Section 10: Stability and Reactivity

Reactivity No dangerous reaction known under conditions of normal use.

Chemical stability Stable

Possibility of hazardous reactions Hazardous polymerization will not occur.

Conditions to avoid Oxidizing agents. Do not heat above the flash point.

Incompatible materials This product may react with strong oxidizing agents.

Hazardous decomposition products Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Other adverse effects:

Ecological Fate No data available.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

Avoid contact of spilled material with soil and surface waterways. Consult an environmental professional to determine if local, regional or national regulations would classify spilled or contaminated materials as hazardous waste. Use only approved transporters, recyclers, treatment, storage or disposal facilities. Dispose of in accordance with all applicable local and national regulations.

Packaging waste

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
