# SAFETY DATA SHEET

### Section 1. Identification

| Product name                    | Tribol CH 1430  |
|---------------------------------|---|
| SDS #                           | 468658  |
| Code                            | 468658-DE03   |
| Relevant identified uses of     | of the substance or mixture and uses advised against  |
| Product use                     | Chain lubricant.<br>For specific application advice see appropriate Technical Data Sheet or consult our company representative.   |
| Manufacturer                    | Castrol Industrial North America, Inc.<br>150 W. Warrenville Road<br>Naperville, IL 60563   |
| Supplier                        | Castrol Industrial North America, Inc.<br>150 W. Warrenville Road<br>Naperville, IL 60563<br>Product Information: +1-877-641-1600 |
| EMERGENCY SPILL<br>INFORMATION: | 1 (800) 424-9300 CHEMTREC (USA)   |

## Section 2. Hazards identification

| OSHA/HCS status                     | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).  |
|-------------------------------------|--|
| Classification of the               | SKIN SENSITIZATION - Category 1  |
| substance or mixture                | TOXIC TO REPRODUCTION (Fertility) - Category 2   |
|                                     |  |
| GHS label elements                  |  |
| Hazard pictograms                   |  |
|                                     |  |
| Signal word                         | Warning  |
| Hazard statements                   | May cause an allergic skin reaction.<br>Suspected of damaging fertility.   |
| Precautionary statements            |  |
| Prevention                          | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Avoid breathing vapor. Contaminated work clothing should not be allowed out of the workplace. |
| Response                            | IF exposed or concerned: Get medical attention. IF ON SKIN: Wash with plenty of<br>soap and water. Wash contaminated clothing before reuse. If skin irritation or rash<br>occurs: Get medical attention.   |
| Storage                             | Store locked up.   |
| Disposal                            | Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Hazards not otherwise<br>classified | Defatting to the skin.   |

| Product name | Tribol CH 1430            |        | Product code | 468658-DE03 | Page: 1/9 |
|--------------|---------------------------|--------|--------------|-------------|-----------|
| Version 1    | Date of issue 03/09/2015. | Format | US           | Language    | ENGLISH   |
|              |                           |        | (US)         |             | (ENGLISH) |

### Section 3. Composition/information on ingredients

#### Synthetic lubricant and additives.

Substance/mixture Mixture

| Ingredient name | CAS number | %         |
|-----------------|------------|-----------|
| Bisphenol A     | 80-05-7    | ≥0.3 - <1 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact                | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.<br>Eyelids should be held away from the eyeball to ensure thorough rinsing. Check for and remove any contact lenses. Get medical attention.  |
|----------------------------|---|
| Skin contact               | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention. |
| Inhalation                 | In case of inhalation of decomposition products in a fire, symptoms may be delayed. If inhaled, remove to fresh air. The exposed person may need to be kept under medical surveillance for 48 hours. Get medical attention.   |
| Ingestion                  | Do not induce vomiting unless directed to do so by medical personnel. Never give<br>anything by mouth to an unconscious person. If unconscious, place in recovery position<br>and get medical attention immediately. Get medical attention.   |
| Protection of first-aiders | No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.   |

#### Most important symptoms/effects, acute and delayed

See Section 11 for more detailed information on health effects and symptoms.

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician  | In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.<br>Treatment should in general be symptomatic and directed to relieving any effects. |
|---------------------|---|
| Specific treatments | No specific treatment.  |

### Section 5. Fire-fighting measures

| Extinguishing media                        |  |
|--|--|
| Suitable extinguishing media               | In case of fire, use foam, dry chemical or carbon dioxide extinguisher or spray.   |
| Unsuitable extinguishing media             | Do not use water jet.  |
| Specific hazards arising from the chemical | In a fire or if heated, a pressure increase will occur and the container may burst.  |
| Hazardous combustion<br>products           | Combustion products may include the following:<br>carbon dioxide<br>carbon monoxide<br>nitrogen oxides<br>sulfur oxides<br>phosphorus oxides |

| Product name | Tribol CH 1430            |        | Product code | 468658-DE03 | Page: 2/9 |
|--------------|---------------------------|--------|--------------|-------------|-----------|
| Version 1    | Date of issue 03/09/2015. | Format | US           | Language    | ENGLISH   |
|              |                           |        | (US)         |             | (ENGLISH) |

## Section 5. Fire-fighting measures

| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
|--|---|
| Special protective                           | Fire-fighters should wear positive pressure self-contained breathing apparatus (SCBA)   |

Special protective equipment for fire-fighters

## Fire-fighters should wear positive pressure self-contained breathing apparatus (SC and full turnout gear.

### Section 6. Accidental release measures

| Personal precautions, protecti | ve equipment and emergency procedures  |  |  |  |  |
|--------------------------------|--|--|--|--|--|
| For non-emergency<br>personnel | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Put on appropriate personal protective equipment. Floors<br>may be slippery; use care to avoid falling. Contact emergency personnel.   |  |  |  |  |
| For emergency responders       | Entry into a confined space or poorly ventilated area contaminated with vapor, mist or fume is extremely hazardous without the correct respiratory protective equipment and a safe system of work. Wear self-contained breathing apparatus. Wear a suitable chemical protective suit. Chemical resistant boots. See also the information in "For non-emergency personnel".   |  |  |  |  |
| Environmental precautions      | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |  |  |  |  |
| Methods and materials for con  | tainment and cleaning up   |  |  |  |  |
| Small spill                    | Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |  |  |  |  |
| Large spill                    | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Contaminated absorbent material may pose the same hazard as the spilled product. Dispose of via a licensed waste disposal contractor. |  |  |  |  |

## Section 7. Handling and storage

| Precautions for safe handling                                      |  |  |   |  |  |
|--|--|--|---|--|--|
| Protective measures  | Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or<br>on skin or clothing. Avoid breathing vapor or mist. Do not ingest. Empty containers<br>retain product residue and can be hazardous. Keep in the original container or an<br>approved alternative made from a compatible material, kept tightly closed when not in<br>use. Do not reuse container. If during normal use the material presents a respiratory<br>hazard, use only with adequate ventilation or wear appropriate respirator. Persons with<br>a history of skin sensitization problems should not be employed in any process in which<br>this product is used. Avoid exposure - obtain special instructions before use. Do not<br>handle until all safety precautions have been read and understood. Avoid exposure<br>during pregnancy. |  |   |  |  |
| Advice on general occupational hygiene                             | Eating, drinking and smoking s<br>handled, stored and processed<br>clothing and protective equipment<br>additional information on hygien   | . Wash thoroughly<br>ent before entering   | after handling. Rem   | ove contaminated   |  |
| Conditions for safe storage,<br>including any<br>incompatibilities | Store in accordance with local direct sunlight in a dry, cool and (see Section 10) and food and sealed until ready for use. Stor with this product. Containers the kept upright to prevent leakage containment to avoid environm   | d well-ventilated are<br>drink. Store locked<br>e and use only in ec<br>nat have been open<br>. Do not store in un | a, away from incomp<br>up. Keep container<br>quipment/containers<br>ed must be carefully<br>labeled containers. | atible materials<br>tightly closed and<br>designed for use<br>resealed and |  |

### Section 8. Exposure controls/personal protection

### Section 9. Physical and chemical properties

#### **Appearance**

| Physical state                               | Liquid.   |
|--|---|
| Color  | Yellow. [Light]   |
| Odor   | Not available.  |
| Odor threshold                               | Not available.  |
| рН   | Not available.  |
| Melting point                                | Not available.  |
| Boiling point                                | Not available.  |
| Flash point                                  | Open cup: 260°C (500°F) [Cleveland.]                              |
| Evaporation rate                             | Not available.  |
| Flammability (solid, gas)                    | Not applicable. Based on - Physical state                         |
| Lower and upper explosive (flammable) limits | Not available.  |
| Vapor pressure                               | Not available.  |
| Vapor density                                | Not available.  |
| Density                                      | <1000 kg/m³ (<1 g/cm³) at 15°C                                    |
| Solubility                                   | insoluble in water.   |
| Partition coefficient: n-<br>octanol/water   | Not available.  |
| Auto-ignition temperature                    | Not available.  |
| Decomposition temperature                    | Not available.  |
| Viscosity                                    | Kinematic: 140 to 160 mm <sup>2</sup> /s (140 to 160 cSt) at 40°C |
|  |   |

## Section 10. Stability and reactivity

| _                                  |   |
|------------------------------------|---|
| Reactivity                         | No specific test data available for this product. Refer to Conditions to avoid and<br>Incompatible materials for additional information.                                |
| Chemical stability                 | The product is stable.  |
| Possibility of hazardous reactions | Under normal conditions of storage and use, hazardous reactions will not occur.<br>Under normal conditions of storage and use, hazardous polymerization will not occur. |
| Conditions to avoid                | Avoid all possible sources of ignition (spark or flame).  |
| Incompatible materials             | Reactive or incompatible with the following materials: oxidizing materials.   |
| Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced.  |

### Section 11. Toxicological information

#### Information on toxicological effects

#### Specific target organ toxicity (single exposure)

| Name        |            | Route of exposure | Target organs                |
|-------------|------------|-------------------|------------------------------|
| Bisphenol A | Category 3 |                   | Respiratory tract irritation |

## Section 11. Toxicological information

|  | 5   |
|--|---|
| Information on the likely routes of exposure | Routes of entry anticipated: Dermal, Inhalation.  |
| Potential acute health effects               |   |
| Eye contact                                  | No known significant effects or critical hazards.   |
| Skin contact                                 | May cause an allergic skin reaction.  |
| Inhalation                                   | Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.        |
| Ingestion                                    | No known significant effects or critical hazards.   |
| Symptoms related to the physic Eye contact   | cal, chemical and toxicological characteristics<br>No specific data.  |
| Skin contact                                 | Adverse symptoms may include the following:   |
|  | irritation  |
|  | redness   |
|  | dryness   |
|  | cracking<br>reduced fetal weight  |
|  | increase in fetal deaths  |
|  | skeletal malformations  |
| Inhalation                                   | May be harmful by inhalation if exposure to vapor, mists or fumes resulting from thermal decomposition products occurs. |
| Ingestion                                    | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths                         |
|  | skeletal malformations  |
|  |   |

| Delayed and immediate effects   | and also chronic effects from short and long term exposure |
|---------------------------------|--|
| <u>Short term exposure</u>      |  |
| Potential immediate<br>effects  | Not available.   |
| Potential delayed effects       | Not available.   |
| Long term exposure              |  |
| Potential immediate<br>effects  | Not available.   |
| Potential delayed effects       | Not available.   |
| Potential chronic health effect | <u>s</u>   |
| General                         | No known significant effects or critical hazards.          |
| Carcinogenicity                 | No known significant effects or critical hazards.          |
| Mutagenicity                    | No known significant effects or critical hazards.          |
| Teratogenicity                  | No known significant effects or critical hazards.          |
| Developmental effects           | No known significant effects or critical hazards.          |
| Fertility effects               | Suspected of damaging fertility.                           |

#### Numerical measures of toxicity

Acute toxicity estimates Not available.

| Product name | Tribol CH 1430            |        | Product code | 468658-DE03 | Page: 6/9 |

### Section 12. Ecological information

#### **Toxicity**

No testing has been performed by the manufacturer.

#### Persistence and degradability

Expected to be biodegradable.

#### **Bioaccumulative potential**

Not available.

| Mobility in soil                                       |   |
|--|---|
| Soil/water partition<br>coefficient (K <sub>oc</sub> ) | Not available.                            |
| Mobility   | Non-volatile. Liquid. insoluble in water. |

Other adverse effects No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

#### Notice to reader

All reasonably practicable steps have been taken to ensure this data sheet and the health, safety and environmental information contained in it is accurate as of the date specified below. No warranty or representation, express or implied is made as to the accuracy or completeness of the data and information in this data sheet.

The data and advice given apply when the product is sold for the stated application or applications. You should not use the product other than for the stated application or applications without seeking advice from BP Group.

It is the user's obligation to evaluate and use this product safely and to comply with all applicable laws and regulations. The BP Group shall not be responsible for any damage or injury resulting from use, other than the stated product use of the material, from any failure to adhere to recommendations, or from any hazards inherent in the nature of the material. Purchasers of the product for supply to a third party for use at work, have a duty to take all necessary steps to ensure that any person handling or using the product is provided with the information in this sheet. Employers have a duty to tell employees and others who may be affected of any hazards described in this sheet and of any precautions that should be taken. You can contact the BP Group to ensure that this document is the most current available. Alteration of this document is strictly prohibited.
