

PRODUCT INFORMATION

HASCO MAXCOM 68

Product Description

Hasco MaxCom Compressor Oil 68 is designed to lubricate critical air compressor components that operate under extreme conditions and/or require extended drain intervals. Hasco MaxCom Compressor Oil 68 is formulated from synthetic and renewable base stocks that make them resistant to oxidation which can occur in the harsh compressor environment.

Applications

- Sliding vane and rotary screw compressors
- For use in systems with elevated discharge temps
- Not intended for ammonia compressors

Features

- Excellent oxidation resistance
- Versatile fluid
- Protects against component wear

TYPICAL SPECIFICATIONS

Gravity API	31.4
Flash Point F	400
Fire Point F	440
Pour Point F	-30
Viscosity	
cSt @ 40 C	70.4
cSt @ 100 C	10.2
Viscosity Index	136
